

1) Unlock Cabinet (cabinet is flush with LH side of organ).

There is a combination lock on the left hand side of white cabinet door. Picture 1.1

38 08 22

turn the dial 3x Right, then stop at first number (38).

Turn to L, once past 2nd number, then stop at 2nd number (08).

Then R to final number (22).

The lock sticks somewhat.

1a) There is an additional lock, inside the cabinet, for the RH door.

It is at the lower LH inside corner of this door. Picture 1.2.

Picture 5.2

5c) Attach HDMI cable to camera. Picture 5.3

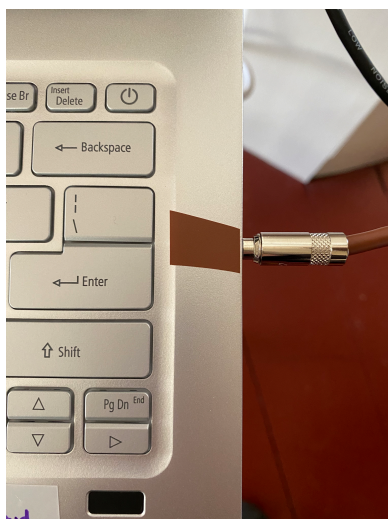

Picture 5.3

6) Connect Laptop 1 and ATEM Switcher

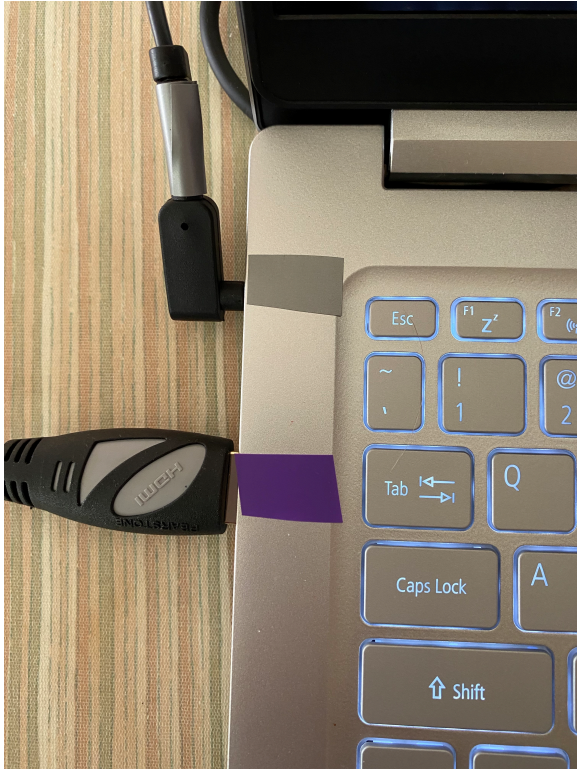

7a) Turn on LAPTOP 2 (gray).

7b) Attach 1/8 cable into headphone jack into right side of computer. (brown) Picture 7.1

Picture 7.1

7c) Attach HDMI cable (purple) and power cable (gray) to left side of computer. Picture 7.2

Picture 7.2

PUTTING EQUIPMENT AWAY.

Put away camera, tripod, two laptops in the white cabinet and lock it up.
LEAVE the ATEM switcher and all the wires/cables out and on/around the table.
Preferably, cover the table with a cloth. Leave the binder OUT—unless you have memorized the combo for the lock on cabinet, haha!
